Professional Experience

Full Stack Developer

VP Algo | Aug 2023 - JUN 2024

- Integrated push notifications in a web view app, significantly boosting user engagement.
- Fixed double API calls, reducing server load and improving response time. Applied React optimization techniques to enhance performance.
- Developed coupon and referral systems, integrated Nodemailer for email sending, trading APIs, and revamped UI for a better user experience and increased engagement.

Projects

E-Store Admin Dashboard

- Developed a full admin panel with key management features using React.
- Created interactive charts and graphs for data visualization.
- Developed tools for effective task management and user account administration.
- Provided detailed performance tracking analytics and customization options.
- **Tech Stack:** React, Tailwind CSS

YouTube

- Designed efficient RESTful APIs to handle fetch videos and interactive comments.
- Optimized frontend for responsive web design and high-quality video playback.
- Implemented personalized subscriptions and efficient video search functionalities.
- Ensured smooth user experience with categorized content browsing.
- **Tech Stack:** React, Redux, API integration, Firebase, Chakra UI, Bootstrap

E-commerce

- Developed a secure e-commerce web application with advanced authentication features.
- Implemented seamless user experience with frontend in React and Redux.
- Designed efficient server-side APIs using Node.js and Express.js.
- Created and optimized database models and queries using MongoDB.
- I've implemented Nodemailer for sending OTPs in the 'forgot password' feature and for sending automated email receipts..
- **Tech Stack:** Node.js, Express.js, Mongo DB, React, Redux, Firebase, JWT, Password Hashing.
